DS18 "WE LIKE IT LOUD"

We at DS18 are determined and confident, driven by action and have a desire to create a better way of life together. We see the world of sound and the culture it has developed as an opportunity for growth and unification. Use sound to improve the lifestyles of people everywhere and inspire them to join our quest for sound excellence.

We want to produce audio products at the highest level for all watercraft/vehicles and push the boundaries of sound quality. We work every day to revolutionize the development of sound equipment and create a sophisticated and modern product line that sets the industry standard.

MRX1

The MRX1 from DS18 is the ultimate all-in-one boat radio that stands for performance, precision and durability. With its IPX6 water resistance, UV protection, salt water splash protection and special coating, this beast can take anything you throw at it. It also comes with a silicone cover for added protection. With AM/FM receiver, USB and AUX connection and Bluetooth V4.2 connectivity, this boat radio has everything you need.

MRX1

RRP 209,90€

- IP65
- 2.75" LCD display
- AM/FM radio
- USB/AUX/Bluetooth
- 4x 40 watt output
- Silicone cover incl.
- RCA output for amplifier
- 12 Volt
- Incl. fuse & holder

NXL-X SERIES

The DS18 NXL-X series speaker amplifiers are specifically designed for use in marine environments and offer an ideal combination of performance, versatility and robustness. With their IP67 waterproof rating, they can withstand even the harshest conditions, including UV radiation, salt water and humid environments.

These amplifiers are available in various configurations, including 2-, 4-, 5- and 8-channel options, and are suitable for both speakers and subwoofers. They offer precise sound control through high and low pass filters and a compact design that allows for easy installation.

The NXL-X series not only guarantees reliable performance and high-quality sound, but also impresses with durable materials and a sophisticated design that is perfectly tailored to the requirements of the marine sector. Whether on the water, in the field or on the move - the NXL-X series delivers impressive audio quality and is the perfect companion for every adventure.

DS18 SOUNDBAR

The DS18 soundbars in 26" and 37" sizes are powerful and versatile audio solutions for marine and outdoor systems. Both models are equipped with robust IP35 protection and a durable steel grille to withstand even the harshest conditions.

Equipped with Class A/B amplifiers, the soundbars deliver crystal clear sound that effortlessly drowns out ambient noise. The 26" offers up to 600W maximum power (100W RMS), while the larger 37" reaches an impressive 1200W maximum power (200W RMS). Built-in protection functions against overheating, overloading and short circuits ensure safety at maximum volume.

With Bluetooth V5.0, USB and AUX connections and five preset EQ modes, the soundbars offer flexible connection options and customizable sound. The RGB LED lighting and a blue backlit display set visual accents and create the perfect atmosphere for any occasion.

Thanks to the rotating control panel and adjustable clamps (for pipes from 38mm to 57mm), the soundbars can be mounted horizontally, vertically or at any angle, making them extremely versatile.

The DS18 soundbars combine robust design, impressive sound quality and stylish lighting.
